# ECCO GOLF BIOM H5

**Inspired by Nature – build to last.**

Inspired by the wild and rugged nature of the Scottish Highlands, and powered by exclusive Danish technologies, the ECCO M GOLF BIOM H5 is a new performance golf shoe built for the elements. If many consider Scotland to be the home of golf, Denmark is driving innovations in the sport: the shoemaker's own state-of-the-art ECCO-TEX waterproof membrane will keep your foot dry and comfortable in wet conditions. For a modern, sporty aesthetic as well as all-day comfort, this next generation BIOM golf shoe is crafted from ECCO Performance Leather with a one-piece engineered knit sock. Along with a snug fit, the BIOM® NATURAL MOTION® technology creates stability and forward momentum for power during your swing. Wherever your round, and your day, takes you, the new and innovative outsole delivers stability and traction.

ONE PIECE  
ENGINEERED  
LINING the SOCK

ETTS

## Key F&B

ECCO Performance Leather with a one-piece engineered knit sock for a modern, sporty aesthetic and all-day comfort

ECCO-TEX waterproof membrane keeps your foot dry and comfortable in wet conditions

Removable and washable Ortholite® insole supplies long-term cushioning with the option of removing it for extra width

BIOM® NATURAL MOTION® technology for a snug fit, along with stability and forward momentum for power during the swing

Made with ECCO FLUIDFORM™ Direct Comfort Technology - soft, light and provides bounce and energy return

The New ETTS - ECCO TERRA TRACTION SYSTEM delivers optimal traction, durability and stability

Comes in lace or BOA®

# TECHNICAL FEATURES

## 01\_ **BIOM®**

Wearing an ECCO GOLF shoe powered by BIOM® NATURAL MOTION® technology is the closest you will ever get to experiencing a barefoot feel on the first tee. Inspired by barefoot runners, ECCO GOLF developed the pioneering BIOM® technology to allow to move more naturally and efficiently. Thanks to an anatomical BIOM® last that follows the natural curves of your foot, you can enjoy a better push-off and maximum forward movement, as well as enhanced support and a reduced chance of injury. BIOM® is the low-to-the-ground construction, which ensures stability and strengthen leg muscles with every step.

## 02\_ **ECCO-TEX®**

Keeping your foot dry in all weather conditions is key to comfort on a golf course, which is why ECCO GOLF uses ECCO-TEX waterproof technologies.

## 03\_ **GORE-TEX® SURROUND**

Gore Tex Surround is the state-of-the-art technology offers 360- degree climate control. Your foot will stay dry and ventilated in all conditions, thanks to technology that prevents water from entering the shoe while allowing perspiration to easily escape from the inside. A highly advanced air channelling system within the grid-shaped sole structure provides 360-degree breathability without compromising on waterproof protection.

## 04\_ **ZONAL FLUIDFORM™**

With its culture of experimentation and innovation, ECCO continues to develop its signature FLUIDFORM™ technology. One recent advance is ZONAL FLUIDFORM™ Technology, producing a midsole moulded from PU that has zones with different rigidity. This innovation means that you can create the ideal balance of cushioning and stability exactly where you need it, optimising performance and comfort.

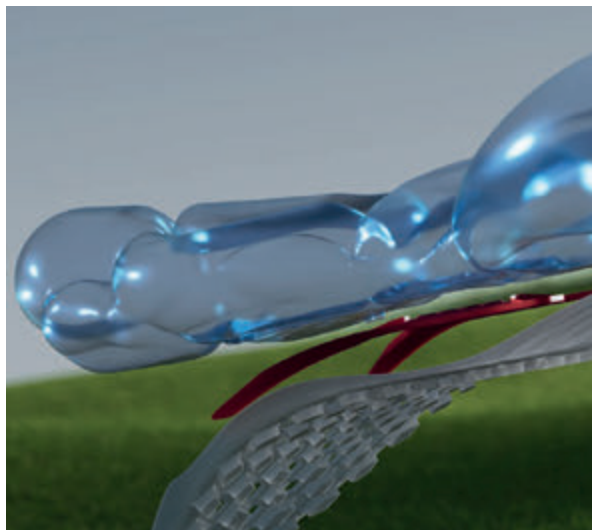

**ZONE 1\_**the heel of the midsole has medium rigidity for greater cushioning and comfort.

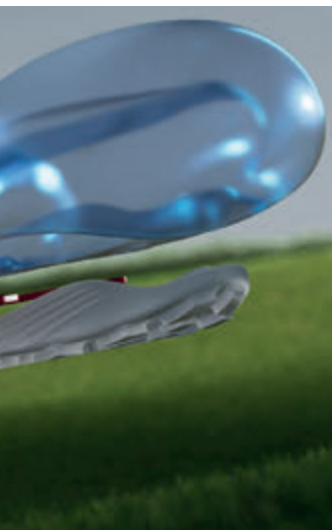

**ZONE 2\_**the middle part of the midsole has the highest levels of rigidity which supplies excellent lateral stability throughout the swing.

**ZONE 3\_**the forefront of the midsole has lower rigidity for your walking comfort.

## 05\_ **FLUIDFORM™**

ECCO FLUIDFORM™ Direct Comfort Technology is a state change process where a fluid, lightweight material is injected into a shoe mould to form a solid, shock-absorbent sole. Using our proprietary state-of-the-art lasts – engineered to deliver both high levels of comfort, following the anatomy of the human foot, and contemporary, versatile styles – FLUIDFORM™ provides an exceptional fit-and-feel that stands in stark contrast to the hard, flat sole parts of conventional shoemaking techniques. Together with this fine-tuned balance of cushioning and rebound, FLUIDFORM™ also ensures an integral, supple bond between the upper and the sole, without any glued or stitched assemblies, which leads to reliability and durability.

## 06\_ **LYTR TECH**

Ultra-light, state-of-the-art foam supplies outstanding, game-changing rebound softness and light weight. ECCO's new LYTR Foam, made from an advanced bounce and rebound material is embedded in the sole via the signature ECCO FLUIDFORM™ Direct Comfort Technology. The foam is seamlessly combined in the midsole with ECCO's soft PHORENE™, which provides contoured comfort, stability and a longlasting integral bound to the leather upper. For superior comfort and performance, each zone – the forefoot, midfoot and heel – has targeted amounts of the two materials.

## 08\_ **MTN-GRIP**

The innovative ECCO MTN GRIP outsole has three different sections: heel area - for enhanced heel traction and ground force stability. Middle part - providing traction and ground penetration and the front for rotational support throughout the swing. TPU elements wrap around the sides for lateral stability, while elevating the modern, premium look.

## 07\_ **E-DTS™ TWIST**

A fresh and innovative spin on the E-DTS™ outsole – some traction bars have been enlarged and rotated for additional durability and multi-directional traction.

## 09\_ **BIOM® H5 WITH E-TTS**

ECCO's newest traction system - ECCO TERRA TRACTION SYSTEM. ECCO is reknown for it's outstanding hybrid outsoles, which deliver optimal traction, durability and stability. Inspired by the sharp edges and "random" orientation of rock and earth formations, E-TTS delivers traction from all directions. the split in the heel area offers not only advanced bounce, on the heel strike, but also helps us to reduce material used.

## ALISON LEE

I am so happy to be part of the ECCO GOLF family. I was fascinated by the shoes even before I became an ambassador. The design, combined with the quality of the material and the unbeatable comfort and stability, are the best ingredients to complement my golf game. I can't wait to see what the future holds for me as part of the ECCO GOLF Collective. Here's to an outstanding summer season in 2025.

*Best Alison*

## ERIK **VAN ROOYEN**

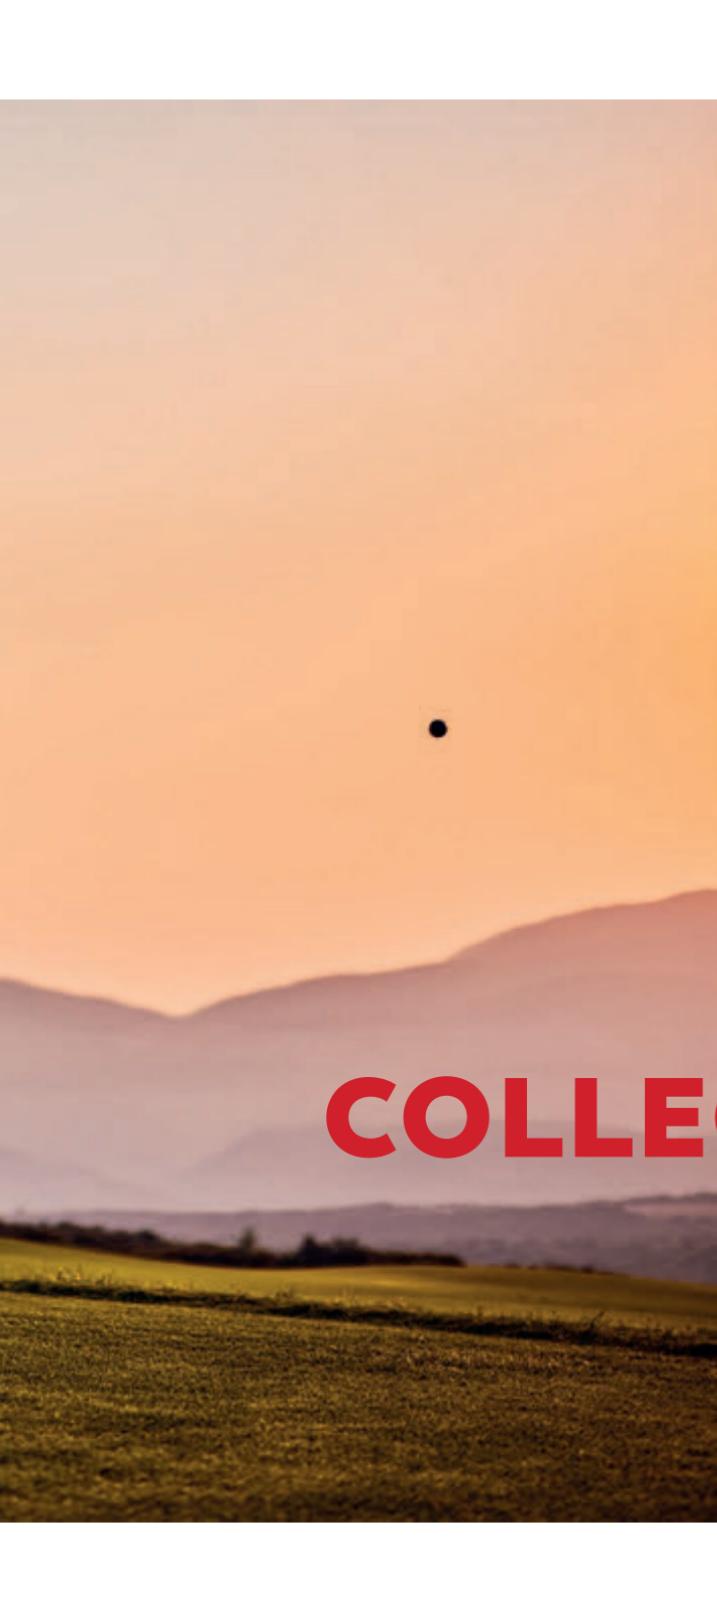

When I was allowed to try out the new LT1 at our photoshoot in November 2023, I realised why my partnership with ECCO is so successful. The high quality of the shoe, coupled with the lightness and modern design, is the result of professionals who understand their craft. The new designs for the 2025 season deliver everything I need as a golf pro to meet the demands of my job among the best players in the world - thank you ECCO.

*Best Erik*
